

UNIVERSITY OF UTAH GUIDELINES FOR PHASED RETURN-TO CAMPUS

(WORKING DOCUMENT - SUBJECT TO MODIFICATION)

v.1

DECISIONS AND GUIDANCE IN THIS MATRIX WILL BE MADE USING THE MOST CURRENT PUBLIC HEALTH AND SAFETY DATA				
	Green - New Normal for everyone except high-risk individuals Potential Triggers - Vaccine developed, tested and authorized for use; designated by state or local government leaders or the president of the university	Yellow - Low Risk for everyone except high-risk individuals Potential Community Considerations - Ability to sustain decrease in cases, hospital and health care capacity, and testing while slowly easing physical distancing restrictions gradually to allow for monitoring at each step; designated by state or local government leaders or the president of the university Potential University Readiness Considerations - Classroom space, cleaning capacity, supplies and disinfectant availability, student housing	Orange - Moderate Risk for everyone except high-risk individuals Potential Community Considerations - Sustained reduction in cases for at least 14 days; hospitals in the state are safely able to treat all patients; state is able to test all people with COVID-19 symptoms; state is able to conduct active monitoring of confirmed cases and their contacts; designated by state or local government leaders or the president of the university Potential University Readiness Considerations - Symptom monitoring, building/lab access, cleaning capacity, supplies and disinfectant availability	Red - High Risk for everyone Potential Community Considerations - Uncontrolled community spread of cases and potential for overwhelmed health system; designated by state or local government leaders or the president of the university
General Guidelines for all areas	University is open and operating under stricter hygiene and cleaning regimen; monitoring health of campus community	Employers encourage flexible working arrangements (rotating shifts, remote work, etc.); comply with distancing guidelines; increased cleaning regimen of high-touch areas; monitor employees for symptoms and well-being	Employers exercise extreme caution, with employees working remotely, evaluating workforce concerns, and enacting strategies to minimize economic impact. Businesses that necessitate on-site work should monitor workforce for symptoms and well-being	Only mandatory employees and functions on campus
		Employers take reasonable caution	Employers take extreme caution	
		Provide accommodations to high-risk employees; minimize face-to-face contact, assign tasks that allow them to maintain 6-foot distance from other employees or customers, implement flexible work hours or staggered shifts, allow high-risk individuals to work remotely, etc.	Provide accommodations to high-risk employees	
		Encourage remote work when possible	Face coverings worn at all times in public settings or for interactions that take place within a 6-foot distance; ensure that face coverings are available	
		Workplaces comply with distancing and hygiene guidelines	In-person interaction limited to those who have been following recommended distancing/hygiene guidelines	
		Limit unnecessary travel	Leave home infrequently, maintain 6 feet of distancing when away from home	
			Interactions in decreased group sizes that enable all physical distancing guidelines to be maintained; physical interactions in groups of 20 or fewer	

			Limit out-of-state travel, quarantine 14 days upon return from high-risk areas	
			K-12 schools closed	
			Make every possible effort to enable working from home as a first option; where not possible, workplaces comply with distancing and hygiene guidelines	
			Employees and volunteers of businesses operate remotely, unless not possible	
			Eliminate unnecessary travel and cancel or postpone in-person meetings, conferences, workshops, and training sessions	
			High-contact businesses can operate under strict protocols	
			Symptom checking in business interactions	
			Employer evaluate workforce strategy, concerns, and enact strategies to minimize economic impact	
Student Housing	Regular occupancy	Limited number of residents (TBD) to decrease density and promote distancing	Only approved student residents allowed to live on campus	Limited, approved student residents (prioritized categories) allowed in limited buildings
	Maintain messaging, signage and increased cleaning practices	Regular messaging to residents about public health guidelines and hygiene practices	Regular messaging to residents about public health guidelines, hygiene practices, etc.	Regular messaging to residents about public health guidelines and hygiene practices
	Increased number of isolation rooms available with continued monitoring for areas of increased symptoms	Adjustment in occupancy planning to support social distancing	Single residents spaced out to single rooms with most buildings closed	Single residents spaced to single rooms or family groups
		No guests allowed	No guests allowed	No guests allowed
		Limited gathering spaces open with furniture placed for distancing; signage reminders and frequent cleaning	Gathering spaces (indoor and outdoor, including playgrounds) and fitness areas closed	Gathering spaces (indoor and outdoor, including playgrounds), and fitness areas closed
		Increased number of isolation rooms available for those with symptoms (includes food delivery)	Isolation rooms available (includes food delivery)	Isolation rooms available (includes food delivery)
		Frequent cleaning of high-touch areas in public spaces	Frequent cleaning of high-touch areas in public spaces	Frequent cleaning of high-touch areas in public spaces
		Hand sanitizer stations spaced throughout public areas	Hand sanitizer stations spaced throughout public areas	Hand sanitizer stations spaced throughout public areas
		Employees wear face coverings and residents expected to wear face coverings	Employees wear face coverings and residents expected to wear face coverings	Employees wear face coverings and residents strongly encouraged to wear face coverings
		Employees who engage directly with residents/public checked for symptoms	Employees who engage directly with residents/public checked for symptoms	Employees who engage directly with residents/public checked for symptoms
	Group programming limited and social distancing maintained	Group programming limited and social distancing maintained	Computer labs open with distancing and frequent cleaning	
	Symptom checking of residents (TBD)		Signage and barriers to support social distancing at service desks and employees wear face coverings	
Book Store/Retail	Retail establishments operate under heightened hygiene and cleaning standards.	Retail establishments exercise discernment, establishing principles for safe environment	Retail establishments create a safe environment for customers and staff with	Only mandatory employees and functions on campus

Signage to encourage customers to use cleaning wipes and hand sanitizer	Face coverings worn for interactions that take place within a 6-foot distance	Both customers and employees wear face coverings	
Ensure cleaning wipes are near shopping carts and shopping baskets	Maintain signage to remind and help individuals to stand at least 6 feet apart, including outside when in line, and in store checkout lines	Maintain signage to remind and help individuals stand at least 6 feet apart , including outside when in lines and in store checkout lines	
Provide hand sanitizer at checkout counters and entrances/exits	Assign an employee to disinfect carts and baskets after each use	Assign an employee to disinfect carts and baskets after each use	
	Resume normal patron capacity	Maximum number of patrons must be such that a 6-foot distance between patrons and employees can be easily maintained (1 person per 120 square feet)	
	Provide hand sanitizer at checkout counters	Provide hand sanitizer at checkout counters	
	Set an established daily time frame for high-risk individuals to come in without pressure from crowds	Limit purchase quantities on certain goods selling out quickly; this will help maintain ability to meet needs of patrons and limit crowds and lines	
	Staff may only come closer than 6 feet when accepting payment or delivering goods or services if wearing face coverings	Set an established daily time frame for high-risk individuals to come in without pressure from crowds	
	One-way aisles to support physical distancing	Staff may only come closer than 6 feet when accepting payment or delivering goods or services if wearing face coverings	
	Discourage bringing kids or strollers into stores when possible to allow as much space as possible in aisles	One-way aisles to support physical distancing	
	Consider installing clear plastic partitions between cashier and customer where it is not possible to maintain 6 feet of distance	Discourage bringing kids or strollers into stores when possible to allow as much space as possible in aisles	
	Deliver products through curbside pick-up or delivery	Consider installing clear plastic partitions	
	Make regular announcements to remind customers to follow physical distancing guidelines	Deliver products through curbside pick-up or delivery	
		Make regular announcements to remind customers to follow physical distancing guidelines	
Gym/Student Life Center	Open with cleaning guidance	*All staff have health checks and are provided face coverings (further guidance needed for employee health checks); student staff will be placed 6' apart in work stations; only three student staff allowed in Base Camp at one time; work and social stations removed or taped off	ESLC closed for fitness use Only mandatory employees and functions on campus

Space equipment at normal capacity	The following areas and protocols will be in place to ensure compliance with current state guidelines of 100 sq ft per person. LEGACY GYM: Split in two with divider curtain and repurposed for group fitness classes. THE SUMMIT: No wall climbing; three bouldering routes available and three allowed in area at a time. RACQUETBALL COURTS: Only one person at a time in a court. THE VAULT: Only one person at a time. HIGH COURTS: Basketball only and only one person per goal. THE CORE: All equipment in 10'x10' zones, including free weights, cable weights, circuit weights, functional training and cardio machines. Staff will ensure that participants disinfect equipment after each use. THE COVE: 10' x 10' zones and only three allowed. THIRD LEVEL:	McCarthy Track and Field open for individual running (no team or group activities) with signage encouraging distancing	
Make cleaning supplies available throughout the establishment and post signs encouraging patrons to clean all equipment	Cleaning products are made available in all areas along with signage and/or staff reminding participants to clean equipment after each use	Outdoor Adventures. *All staff have health checks and are provided face coverings. Equipment available, but would not include "soft" goods such as wet suits, tents or sleeping bags. Rentals would also be by reservation and scheduled pick-up and drop-off times, which would happen in the parking lot. Items available would include SUPs, bikes, rafts, canoes, and kayaks (inflatable, sea, and lake). All payments by credit card only. Parking lot, sidewalk and lobby marked to provide physical distancing. All equipment washed after return. *Further information/guidance needed for health screening staffing, training, equipment, etc.	
All programs and services return	No intramural sports or sport clubs until "normal" designation or changes made by local officials		
	Only one turnstile available for entrance to create spacing for exit turnstile		
	We will need further guidance on locker rooms, universal change rooms, water fountains and restrooms		
	Program managers will create updated hourly/daily/closing cleaning lists		
	Further guidance needed for employees on face mask use if they need to use whistles (lifeguards) or perform lifesaving or first aid		

		During this time, we will not offer family hours, facility rentals, guest passes, or memberships for significant others and dependants		
		Appropriate signage throughout facility, web site and physical media regarding physical distancing, activity zones, the latest CDC guidelines, etc.		
Classrooms		No more than 49 students in a classroom at one time	Online instruction in summer with limited exceptions approved by the Dean and SVP-AA or SVP-HS or designees based upon the ability to maintain safety for students, staff and faculty	Only mandatory employees and functions on campus
		Courses scheduled in classrooms with enough physical distancing available for each student in the class as guided by public health standards at the time	If in-person classes are held, no more than 19 students in a classroom at one time	
		Front row of seats blocked off; instructor at least 10 feet from students during lectures	If in-person classes are held, courses scheduled in classrooms with enough physical distancing (10 feet between students) available for each student in the class	
		Surface cleaning between classes	If in-person classes are held, front row blocked off; instructor at least 10 feet from students during lectures	
			If in-person classes are held, surface cleaning between classes	
Open-design offices			Face coverings must be worn	Only mandatory employees and functions on campus
			Operate/work remotely, unless not possible	
			At least 6-feet of separation should be maintained between individuals	
			Regularly disinfect high-touch areas	
Contained Offices			Avoid physical interactions with high-risk individuals as much as possible	Only mandatory employees and functions on campus
			Do not congregate	
			Face coverings must be worn in interactions that take place within a 6-foot distance	
Common Spaces			Regularly disinfect high-touch areas	
			Do not touch and/or regularly disinfect high-touch areas (e.g., door handles, buttons/switches, handrails, check-out counters, restroom surfaces, etc.)	Only mandatory employees and functions on campus
			Provide hand sanitizer for individuals at entrances and exits	
			Maintain 6-foot distance between individuals	

			Wear face coverings in public when interactions could happen between individuals	
Laboratories/research space		Only activities that can be safely conducted for the conditions, along with normal EHS guidelines, are permitted	Only research activities that can be safely conducted with physical distancing, sanitization and limited personnel density, along with normal EHS guidelines, are permitted	Only mandatory employees and functions on campus
			Researchers should consult the VPR website for complete protocols	
			Allow only up to 1 individual per lab or research-related space for small rooms and 2 for larger rooms (or 1 per bay for open labs).	
		You may only come to campus if: You have had no fever for at least 72 hours (without the use of medicine that reduces fevers) AND other symptoms have improved AND at least 7 days have passed since your symptoms first appeared	You may only come to campus if: You have had no fever for at least 72 hours (without the use of medicine that reduces fevers) AND other symptoms have improved AND at least 7 days have passed since your symptoms first appeared	
			Anyone who can work remotely should do so	
		Accommodations should be made for high-risk personnel to work from home	Accommodations should be made for high-risk personnel to work from home	
		Maintain at least 6 ft of separation as often as possible	At least 6-feet of separation should be maintained at all times	
			To avoid physical overlap, time at the lab should be scheduled, such as through calendaring	
		Each lab should maintain a check list of surfaces to sanitize at the start and end of each shift, including shared equipment and fridge doors/handles, etc.	Each lab should maintain a check list of surfaces to be sanitized at the start and end of each shift, including shared equipment and fridge doors/handles, etc.	
		In-person interactions should be limited to <50 people.	In-person interactions should be limited to <10 people with physical distancing at all times	
		Graduate student research that can be conducted safely is permitted	Graduate student research activities should be limited	
		Undergraduate participation in research is only permitted when classes and student housing are safely operating on campus	Undergraduate research activities can only be conducted remotely	
			High hazard operations should be minimized	
Graduate Clinical Students		General guidance for all areas:	General guidance for all areas:	Only mandatory employees and functions on campus
		Face coverings worn in public settings where other physical distancing measures are difficult to maintain	Face coverings worn in public settings where other physical distancing measures are difficult to maintain	
		Students wear surgical masks in face-to-face clinical settings	Students wear surgical masks in face-to-face clinical settings	

	Students must certify they have taken PPE training	Students must certify they have taken PPE training	
	Students should not be involved in any COVID-19 positive or COVID-19 suspected patient care and should not utilize N-95 masks or higher level of PPE	Students should not be involved in any COVID-19 positive or COVID-19 suspected patient care and should not utilize N-95 masks or higher level of PPE	
	Online and virtual involvement remains	Online and virtual involvement remains	
	Stay 6 feet away from others when possible	Stay 6 feet away from others when possible	
	Clinical preceptors and units agree to have students present	Clinical preceptors and units agree to have students present	
<u>Health Science students on direct patient-facing clinical rotations:</u>	<u>Health Science students on direct patient-facing clinical rotations:</u>	<u>Health Science students on direct patient-facing clinical rotations:</u>	<u>Health Science students on direct patient-facing clinical rotations:</u>
Students participate in all clinical rotations	Take reasonable precautions	Take extreme precautions	Students do not participate in in-person clinical care
Limit interactions with COVID-19 positive and COVID-19 suspected patients, unless student submits evidence of immunity	Students participate in most out-patient and in-patient rotations	Students participate in low acuity outpatient and some inpatient rotations	Students engaged in online learning
		Students who are closest to graduation and have remaining requirements receive priority for placement	Students may be included in virtual care and non-patient facing activities per program rules and agreement from providers
		Limited or no involvement in ED, urgent care settings	
<u>Health Science students in clinical rotations without in-person patient contact:</u>	<u>Health Science students in clinical rotations without in-person patient contact:</u>	<u>Health Science students in clinical rotations without in-person patient contact:</u>	<u>Health Science students in clinical rotations without in-person patient contact:</u>
Students participate in all clinical rotations	Take reasonable precautions	Take extreme precautions	Students do not participate in in-person clinical care
Limit interactions with COVID-19 positive and COVID-19 suspected patients, unless student submits evidence of immunity	Students participate in almost all rotations	Students participate in rotations deemed appropriate by program	Students engaged in online learning
		Students are encouraged to participate virtually, if possible	Students may be included in virtual care and non-patient facing activities per program rules and agreement from providers
		Students who are closest to graduation and have remaining requirements receive priority for placement	
<u>Dental students in clinical rotations with in-person patient contact:</u>	<u>Dental students in clinical rotations with in-person patient contact:</u>	<u>Dental students in clinical rotations with in-person patient contact:</u>	<u>Dental students in clinical rotations with in-person patient contact:</u>
Students participate in all clinical rotations	Take reasonable precautions	Take extreme precautions	Students do not participate in in-person clinical care
Limit interactions with COVID-19 positive and COVID-19 suspected patients, unless student submits evidence of immunity	Students participate in most rotations	Students participate in low acuity settings with close supervision	Students engaged in online learning
		May utilize N-95 masks or equivalent level of protection	Students may be included in virtual care and non-patient facing activities per program rules and agreement from providers

			Students and patients are tested for COVID-19 prior to procedure; out-patient and some in-patient rotations	
			Students who are closest to graduation and have remaining requirements receive priority for placement	
Human Subjects Research (Clinical)	Normal human subjects protocols and IRB oversight apply	Remote mechanisms for performing participant research visits are encouraged	Participant research visits must be performed remotely whenever possible	Participant research visits must be performed remotely whenever possible
		If a research visit cannot be performed remotely, the PI, in consultation with the participant's clinical care provider, should determine if the visit is essential to the participant's health and/or well-being	If a research visit cannot be performed remotely, the PI, in consultation with the participant's clinical care provider, should determine if the visit is essential to the participant's health and/or well-being	If a research visit cannot be performed remotely, the PI, in consultation with the participant's clinical care provider, should determine if the visit is essential to the participant's health and/or well-being
		Research visits that cannot be performed remotely or in conjunction with a clinical visit and that are essential to a participant's health and/or well-being may be performed in person	Research visits that cannot be performed remotely or in conjunction with a clinical visit and that are essential to a participant's health and/or well-being may be performed in person	Essential research MUST comply with Universal Masking policies
		Research visits that cannot be performed remotely and are not essential to a participant's health and/or well-being may be conducted in-person if the participant has no signs of infection, personnel are limited, the Universal Masking Policy is followed, and the visit is as brief as possible	Research visits that cannot be performed remotely and are not essential to a participant's health and/or well-being may be conducted in-person if the participant has no signs of infection, personnel are limited, the Universal Masking Policy is followed, and the visit is as brief as possible	Research visits that cannot be performed remotely or in conjunction with a clinical visit and that are essential to a participant's health and/or well-being may be performed in person
		Enrollment of new patients in a clinical trial or other human subjects-related research may occur unless new enrollment will impede or weaken protection of the participant, other patients, or the care team from COVID-19 exposure	Enrollment of new participant should occur only if: 1) participation is essential to a participant's health and/or well-being or 2) interactions can be conducted remotely	Research visits that cannot be performed remotely and are not essential to a participant's health and/or well-being should be postponed
		Research visits that cannot be performed remotely and are not essential to a participant's health and/or well-being may be conducted in-person if the participant has no signs of infection, personnel are limited, the Universal Masking Policy is followed, and the visit is as brief as possible	Relocation of necessary in-person visits from University Hospitals and Clinics to research compliant space on campus is encouraged	Enrollment of new participant should occur only if: 1) participation is essential to a participant's health and/or well-being or 2) interactions can be conducted remotely
		See full guidelines at the VPR COVID-19 website	See full guidelines at the VPR COVID-19 website	Relocation of necessary in-person visits from University Hospitals and Clinics to research compliant space on campus is encouraged
				See full guidelines at the VPR COVID-19 website

Guest House	Open with health department approved sanitation practices followed	Take precautions with shared spaces with an increased cleaning regimen	Create a safe environment for customers and staff with frequent reminders on distancing and hygiene; monitor employees for symptoms; increase cleaning regimen	Only mandatory employees and functions on campus
	Precautions for staff and guests	Laundry all exposed linens and cleaning supplies separately	Laundry all exposed linens and cleaning supplies separately	
	Mass gatherings follow proper safety procedures and precautions for monitoring symptoms	Symptomatic guests should stay in their rooms and wear face coverings when they leave	Discontinue or decrease housekeeping services to prevent transmission between rooms during guest stays	
		Hand sanitizer stations located at each entrance	High-touch surfaces sanitized frequently with EPA approved cleaners	
		Lobby:	Symptomatic guests should stay in their rooms and wear a face coverings when they leave	
		Hand sanitizer stations located throughout lobby	Provide guests with their own sanitation solutions or wipes to instill guest confidence **if available**	
		Maintain signage to remind and help individuals to stand at least 6 feet apart	Hand sanitizer or handwashing stations located at each entrance	
		Employees wear face coverings and residents expected to wear face coverings	Lobby:	
		Breakfast limited with take-and-go options; self-serve coffee available and area cleaned frequently; limited seating available spread out to maintain distancing	Hand sanitizer stations located throughout lobby	
		Furniture placed to encourage distancing and limited congregation	Maintain signage to remind and help individuals stand at least 6 feet apart	
		Encourage contactless payment; disinfect between transactions	Employees wear face coverings and guests are asked to do so	
		Fitness Room:	Breakfast buffet suspended; self-serve coffee available and area cleaned frequently; no seating provided in the area	
		Limit number of patrons to 6 at one time	Furniture placed to encourage distancing and limited congregation	
		Space equipment so patrons can be 6 feet apart	Encourage contactless payment; disinfect between transactions	
		Make cleaning supplies available and post signs encouraging patron to clean all equipment; staff clean space frequently	Fitness Room scheduled on request with equipment sanitation	
		Conferences:	Conferences:	
	Space set up to maintain 10-foot distance between patrons at all times and maintain signage with reminders	Space set up to maintain 10-foot distance between patrons at all times and maintain signage with reminders		
	Catering take precautions (no buffet style, employees wear face coverings and gloves, etc.)	Catering suspended except limited grab-and-go beverages		

		Hand sanitizer stations located at each entrance	Hand sanitizer stations located at each entrance	
		Group sizes limited to a maximum of 50	Group sizes limited to a maximum of 20	
			Congregating at any point is not allowed	
Food service/Restaurants	Dine-in service operating under proper safety precautions for staff and customers	All facilities open; some dine-in service with distance spacing between tables and limited hours, increased hygiene practices for customers and staff	Premade, to-go options only, limited hours (most facilities closed)	Most facilities closed; PHC provides take-and-go options for HRE residents and staff. No seating available
	Education, training and protocol development and execution will continue to ensure a sanitary and safe environment for guests and associates	Maintain 6-feet distance between parties and limit number of people inside spaces based on square footage with reminder signage	Symptom checking of employees	U of Utah Dining is providing catered meals to 70 members of the U.S. military, four meals per day, 7 days per week. Each meal is individually packed and wrapped in our PHC production facility and delivered to Fort Douglas adhering to CDC regulations
		No self-service buffet, meals plated and dropped at central pick up area; utensils distributed individually with food	Staff wear face coverings	
		U of Utah Dining payment system is largely touchless and cashless; associates that do operate a POS regularly sanitize the workstation and their hands between handling cards and cash; plexiglas shields will be installed at POS Stations	Stagger workstations so workers can maintain a 6-foot distance and do not face one another	
		Employees checked for symptoms and a log will be maintained at each location	U of Utah Dining payment system is largely touchless and cashless; associates that do operate a POS regularly sanitize the workstation and their hands between handling cards and cash	
		Hand sanitizer stations and signage at entrances	Staff must sanitize hands between handling payment options and food/containers	
		U of Utah Dining will have a mobile app in place called Boost. 22 locations will have menus posted on the Boost app; this will allow anyone who downloads the app to order and pay online. Customers with meal plans will also be able to use their meal plans in the Boost app. Order pick-up areas will be equipped and identified in each location, accepting orders from the app	U of Utah Dining has and has access to all PPE required to prepare and serve food to the public following Salt Lake County Health Department Regulations and CDC guidelines	
		U of Utah Catering will operate under regulations set by Salt Lake County Health Department		
Child care facilities	Enhanced cleaning and distancing protocols; no symptomatic children	Enhanced cleaning and distancing protocols; no symptomatic children; services open to community members up to size limitations	Only crisis childcare allowed; enhanced cleaning and distancing protocols; no symptomatic children	Only mandatory employees and functions on campus
	Enhanced cleaing and disinfecting	Enhanced cleaning and disinfecting	Enhanced cleaning and disinfecting	

	Don't use toys that cannot be cleaned	Limit mixing groups of children (keep in separate rooms, allow on the playground at different times)	Encourage children to be 6 feet apart as much as possible	
	Children and staff should stay home if they are sick and get their temperature checked at the facility	Don't use toys that cannot be cleaned	Groups must be restricted to 20 individuals unless a wall can physically separate each group	
		All individuals wash hands with soap and running water upon arrival	All rooms are separated by physical barrier	
		Children and staff should stay home if they are sick and get their temperature checked at the facility	Limit mixing the groups of children (keep in separate rooms, allow on the playground at different times)	
		If there is a confirmed case, facility must be closed and public health department alerted	Front door drop off and pick up	
		All high-touch surfaces should be cleaned regularly	All individuals must wash their hands with soap and running water upon arrival	
			Don't use toys that cannot be washed and disinfected	
			Children and staff should stay home if they are sick	
			Children, parents, and staff are temperature checked at the facility, as well as any maintenance worker needed	
			If there is a confirmed case, facility must be closed and local health department alerted	
			All high-touch surfaces should be cleaned and disinfected after each use (e.g., toys, keyboards, desks, remote controls) or at least twice a day	
			All staff are encouraged, not required, to wear PPE (facial coverings and gloves)	
			Staff are encouraged to stay in center at break time to minimize outside exposure	
Entertainment/Event venues		In-person operation of this industry is allowable under increased cleaning regimen and with operational protocols in place to ensure safe distancing restrictions are met	In-person operation of this industry is allowable under increased cleaning regimen and with operational protocols in place to ensure safe distancing restrictions are met	Only mandatory employees and functions on campus
		Create a safe environment for customers and staff with frequent reminders on distancing and hygiene; monitor employees for symptoms	Create a safe environment for customers and staff with frequent reminders on distancing and hygiene; monitor employees for symptoms	
		Both customers and employees wear face coverings	Both customers and employees wear face coverings	
		Maintain signage to remind and help individuals to stand at least 6 feet apart when in common areas or while visiting exhibits	Maintain signage to remind and help individuals stand at least 6 feet apart when in common areas or while visiting exhibits	

	For reserved-seating facilities, facility capacity is dependent on the ability to block reserved seats to ensure safe radius	For reserved-seating facilities, facility capacity is dependent on the ability to block reserved seats to ensure safe radius	
	A 10-foot distance must be maintained between individual household groups at all times while seated; this may be decreased incrementally based on data and milestone trends	A 10-foot distance must be maintained between individual household groups at all times while seated	
	Set an established time frame for high-risk groups to come in without pressure from crowds and/or separate entrances and queues	Set an established time frame for high-risk groups to come in without pressure from crowds and/or separate entrances and queues	
	Limit the number of people in confined areas to enable adequate distancing at all times	Limit the number of people in confined areas to enable adequate distancing at all times	
	Electronic tickets and playbills encouraged in place of paper	Electronic tickets and playbills encouraged in place of paper	
	Encourage contactless payment; disinfect between transactions at facility stores/gift shops and comply with other retail recommendations	Encourage contactless payment, disinfect between transactions at facility stores/gift shops and comply with other retail recommendations	
	Congregating at any point is not allowed	Congregating at any point is not allowed	
	Participants (performers, actors) in events should have their symptoms checked	Participants (performers, actors) in events should have their symptoms checked	
	Concessions:	Concessions:	
	Serving and seating protocols consistent with restaurant guidance	Serving and seating protocols consistent with restaurant guidance	
	Maintain 6-foot distancing for all lines	Maintain 6-foot distancing for all lines	
	Encourage contactless payment	Encourage contactless payment	
	To the extent reasonable, serve grab-and-go food items	To the extent reasonable, serve grab-and-go food items	
	Any concessions/restaurant seating is compliant with restaurant dine-in recommendations	Any concessions/restaurant seating is compliant with restaurant dine-in recommendations	
Athletic Events	Follow guidance from State, PAC 12, and NCAA	Athletic events have been cancelled for the remainder of the academic year	Only mandatory employees and functions on campus
	Face coverings must be worn		
	Facility capacity is dependent upon ability to block reserved seats to ensure a safe radius is maintained		
	Set an established time frame for high-risk groups to come in without pressure from crowds and/or separate entrances and queues		
	Limit number of people in confined area to enable adequate distancing at all times		
	Maintain signage to remind and help individuals stand at least 6 feet apart when in common areas		
	Congregating at any point is not allowed		

		Encouraged contactless payment; disinfect between transactions at facility stores/gift shops		
Athletic Training Facilities			Must comply with all guidance from state, PAC-12, and NCAA	Only mandatory employees and functions on campus
			May open standalone practice facilities to prevent cross contamination between sports	
			Shared facilities will remain closed or dedicated to one sport only	
			Other training and support gyms will have limited opening only to support specific training needs or enable athletic trainers and strength and conditioning coaches to help student-athletes when needed	
			All staff telecommute except essential athletic trainers, essential strength and conditioning coaches, select nutrition staff (when needed), select facilities and custodial staff, select administration (when needed)	
			Athletic trainers and strength and conditioning coaches will perform symptom checks for all those coming into the practice facilities and will keep a log that can be reported to Health Department, if requested	
			Athletic trainers and strength and conditioning coaches must wear face coverings	
			Student-athletes must wear face coverings	
			Staff and student-athletes must maintain 10-foot distance between others at all times	
			Require 120 sq. ft. to each person within the facilities in order to provide opportunities for distancing	
			No more than four student-athletes at one time in interior spaces	
			No more than ten student athletes at one time in exterior spaces	
			Use auxiliary gyms, outdoor spaces, and fields to provide training and conditioning spaces as an alternative to normal facilities to create distancing opportunities and prevent contamination between teams	
			No team gatherings, meetings or workouts	

			Hand sanitizer or handwashing stations located at each entrance	
			Nutritional food station remain closed and all food delivery will occur inside the specific team training facilities, when necessary	
			De-activate code and fingerprint readers and other access controls that require touching for access	
			Implement a strict hygiene and cleaning regimen to disinfect areas that could have been touched; coordination between athletic trainers and strength and conditioning coaches with University of Utah custodial staff	
Performing Arts Studio Space		No more than 49 students in a studio/classroom at one time	No more than 20 students in a studio/classroom at one time	Only mandatory employees and functions on campus
		Maintain at least a 6-foot distance between individuals; maintain a 10-foot distance if lecturing or physical movement (e.g., dance, theater, etc.); reduce number of students, if necessary, for the size of the lab or studio	Maintain at least a 6-foot distance between individuals; maintain a 10-foot distance if lecturing or physical movement (e.g., dance, theater, etc.); reduce number of students, if necessary, for the size of the lab or studio	
Community Events		General public and employers take extreme caution	General public and employers take extreme caution	Only mandatory employees and functions on campus
		Provide accommodations to high-risk employees	Provide accommodations to high-risk employees	
		Face coverings worn at all times in a public settings or for interactions that take place within a 6-foot distance	Face coverings worn at all times in public settings or for interactions that take place within a 6-foot distance	
		Schools are open	In-person interaction limited to those who	
		Interactions in decreased group sizes that enable all social distancing guidelines to be maintained; social interactions in groups of 50 or fewer	Maintain 6 feet of distancing when away from home	
		All businesses operating	Social interactions in groups of 20 or fewer	
		Employers exercise discretion with remote work and returning to onsite work	Limit out-of-state travel, quarantine 14 days upon return from high risk areas	
		Recommended symptom checking in public/business interactions	K-12 schools closed	
		Certifications encouraged for businesses; certification must be displayed to the public	Make every possible effort to enable working from home as a first option; where not possible, workplaces comply with distancing and hygiene guidelines	
			Employees of businesses operate remotely, unless not possible	
		Minimize face-to-face interactions, including with customers (e.g., install partitions, etc.)		

			Eliminate unnecessary travel and cancel or postpone in-person meetings, conferences, workshops, and training sessions	
			High-contact businesses can operate under strict protocols	
			Symptom checking in business interactions	
			Certification must be displayed to the public	
			Employer evaluate workforce strategy, concerns, and enact strategies to minimize economic impact	
Community Engagement	Community engagement activities and gatherings permitted without restrictions	Community engagement activities preferentially performed remotely	Community engagement activities must be performed remotely whenever possible	Only mandatory employees and functions on campus
		Activities that cannot be performed remotely may be conducted in-person	Activities that cannot be performed remotely may be conducted in-person, if there is an urgent, time-sensitive issue involved in the project

		Community partners guidelines for safety and protection addressed prior to gathering	Community partners guidelines for safety and protection addressed prior to gathering	
Internships (off campus)		Locations must be following orange guidelines	Very limited internships approved by the Dean and Cognizant VP	Only mandatory employees and functions on campus
		Organization and student intern sign a contract to abide by orange guidelines		
Faculty Office Hours/Student Meeting			Use technology (i.e., Zoom, etc.) if at all possible	Only mandatory employees and functions on campus
			Maintain 6 feet or more between all participants, if in-person	
			Department to identify larger shared space to allow 6-foot distancing for office hours/meetings (e.g., conference room), to be cleaned between meetings, if in-person	
Facilities			All facilities areas:	Only mandatory employees and functions on campus
			All staff who can work remotely should continue to do so	

		For staff who must be on campus, maintain a 6-foot distance from co-workers, and do not face one another	
		Wear face coverings at all times in public settings or when required to be within 6 ft. of others	
		Wash hands with soap and running water upon arrival and before leaving the campus	
		Provide hand sanitizer throughout work areas	
		Supervisors to check employee symptoms, including temperatures, upon arrival for work shift	
		Do not congregate in work or break areas	
		No more than 50% of workers can be in a work area at one time. Set a schedule to assure that this limit is not exceeded	
		Planning, Design & Construction:	
		When on a construction project site, wear face coverings at all times and maintain 6 ft. distance from others	
		Buildings & Grounds:	
		Custodians should wear gloves and masks issued by the university during their work shifts	
		Shared tools should be sanitized after use	
		Work vehicles to be assigned in order to limit exposure; employees should sanitize door handles, steering wheel and other areas touched, when returning a vehicle for others to use	
		Outside Contractors:	
		Contractors are responsible for the safety of their work sites, both in the protection of their workers and protection of university employees who come in contact with their work site	
		At a minimum, follow CDC and county guidelines for construction	
		Check all workers for symptoms, including temperature, at start of work shift	
		Workers to wear masks and work gloves when working within 6 feet of other workers	
		Segregate break areas and porta-potties by sub-contractor	
		Disinfect door handles, elevator buttons, handrails, and other commonly-touched areas throughout the workday	

SPECIFIC GUIDANCE OVER ALL AREAS/ISSUES
